PACKING LIST

We are arriving in South Africa at the beginning of winter. Winter in (May to July) is characterized in the higher-lying areas of the interior plateau by dry, sunny, crisp days and cold nights. The Western Cape gets most of its rain in winter, with quite a few days of cloudy, rainy weather. However, these are always interspersed with wonderful days to rival the best of a British summer. April and May are generally the most pleasant months to travel to South Africa, because the rainy season over the summer-rainfall areas has ended and the rainy season in the winter-rainfall areas has not yet begun.

http://www.delta.com/traveling_checkin/baggage/baggage_allowance/index.jsp

1. **ONE check-in bag.** Maximum 50 lbs (23 kg), maximum size 62 inches (length + width + height).

   United allows two checked bags per passenger, but we will not have room for that many bags in the van. So it’s one checked bag per student. If you think you will be taking back souvenirs and need extra room, pack an empty duffel bag in your suitcase. You can put all your dirty clothes and other soft items in the duffel on the return trip, and put more fragile items in your suitcase.

   In check-in bag, pack a copy of your flight itinerary with your home address and phone number plus a copy of our itinerary in South Africa.

2. **ONE carry-on bag** (“A carry-on bag must fit under your seat or in the overhead bin.”

   Carry-on bag dimensions cannot be more than 9" x 14" x 22" (length + width + height) or 45 linear inches (the length, height and width added together). It should be large enough water bottle (empty when you pass through security) notebook, camera, snacks, hat, sunscreen, and other essentials.
